4	METHODS	7
5	PLANNING	9
6	TOOLS AND DATA	11

ACRONYMS

GIS	geographical information system.....	1
SWE	Sensor Web Enablement.....	1
SSW	Semantic Sensor Web.....	1

1 | INTRODUCTION

This document should include:

- motivation / problem field /relevance
- position in the academic and professional debate
- problem statement, objectives, research questions
- approach, theoretical framework, methodology
- references
- preliminary project set up and results

an introduction in which the relevance of the project and its place in the context of geomatics is described, along with a clearly-defined problem statement

Sensor Web Enablement ([SWE](#)), Semantic Sensor Web ([SSW](#)), geographical information system ([GIS](#))

2 | RELATED WORK

a related work section in which the relevant literature is presented and linked to the project;

3 | RESEARCH OBJECTIVES

the research objectives and/or research questions are clearly defined, along with the scope (ie what you will not be doing);

4 | METHODS

overview of the methodology to be used;

5 | PLANNING

time planning—having a Gantt chart is probably a better idea than just a list;

6 | TOOLS AND DATA

since specific data and tools have to be used, it's good to present these concretely, so that the mentors know that you have a grasp of all aspects of the project;

COLOPHON

This document was typeset using \LaTeX . The document layout was generated using the `arsclassica` package by Lorenzo Pantieri, which is an adaption of the original `classicthesis` package from André Miede.
